Any other business/Adjourn	Wesley Thompson	7:30 PM

Getting To Zero MeckCo., an effort to End the HIV Epidemic in MeckCo.

Agenda

Minutes:

This meeting focused on updating the G2Z group about the various CFAR and NIH funded projects which directly or indirectly involved MeckCo., and explored ways that Mecklenburg County can support the various projects. All projects aligned with the EHE.

The results of the STI client and college student survey were presented.

Main findings:

- community knowledge of the link between STI and HIV is still very limited
- there is need for on-campus HIV/STI awareness campaigns
